\*There may have to be some small changes to your dish, but it will still be delicious.

**If you have a food allergy, please let us know before ordering. Full allergen information is available on request. Our kitchen contains nuts, so please be aware that it is not a nut-free environment.**

---

## SUSTAINABILITY

As part of our drive to lower our carbon footprint, we champion local producers and suppliers, which is highlighted by our Taste of the West Gold award.

We recycle all our cardboard and glass waste, and we aim to become a zero waste to landfill company within the next four years.

Over the past five years, we have made significant progress in upgrading to more energy-efficient equipment throughout the restaurant, and we are in the process of switching our lighting to the more energy-efficient LED bulbs.

Our packaging, straws, one-use items and cleaning chemicals have been switched to biodegradable and eco-friendly versions where possible.

## MAKING A DIFFERENCE

For the past four years we have been supporting charities through donations from our Hawaiian pizza sales, themed events and customer collections. Over these years we have donated more than £10,000.

This year we have selected two local charities to support through our Making a Difference scheme.

Hospiscare is a local charity which provides high quality care and support for people in Exeter, Mid and East Devon who are living with any type of terminal illness. Its team of specialist nurses and doctors looks after more than 2,000 patients each year; this includes home visits, local hospital visits, and at Exeter's hospice itself.

For over 24 years St Petrock's has been the first point of contact for people who are homeless or vulnerably housed in Exeter and the surrounding areas. It offers its own routes to accommodation in addition to basic survival services, advice and support.

Its work tackles not only the issue of homelessness but also the accompanying factors, such as anti-social behaviour and wider social inclusion issues.
